LB 268, 618

have judges sit in under existing law they are paid 1/20 of a daily salary, I guess the difference between a District Judge and the Supreme Court Judge, I don't recall for sure but what the amendment does is that they do use retired judges and the amendment will permit the same level of pay less the amount of retirement that the judge is receiving. The net effect would be an estimated reduction of around \$35,000 in General Fund per year. There was no objection on the part of the court to this. It was reasonable that they can use many of these judges and the cost however would be the same as an active judge less the retirement that the judge is already receiving. So I would move adoption of the committee amendments.
